Freightliner Business Class Trucks

Beverage Trucks

STREET SMART BEVERAGE TRUCKS

FL 70 Beverage Truck

The everyday challenges of hauling full loads in and out of urban traffic and crowded loading docks are easily handled by Freightliner's highly efficient Business Class® beverage truck. With many standard and optional features available, here are a number of reasons why Business Class beverage route delivery trucks are anything but routine.

VISIBILITY AND MANEUVERABILITY

Designed with a set-back front axle, sweptback bumper and fenders with up to a 50-degree wheel cut, the beverage truck can thread through the daily route hassles like no other. Known for its incredible visibility, the beverage truck's 1750 square inch windshield is 20 percent larger than its nearest competitor. With a sloped hood offering an impressive line of sight to ground, Business Class trucks provide the driver with an expansive view of the road ahead, increasing safety and reducing potential accidents.

DRIVER SAFETY AND COMFORT

Drive time in the Business Class beverage truck is designed to be safe and productive. Freightliner offers an advantage over the nearest competitor with over six and a half feet of shoulder room from side to side. For busy drivers getting in and out of the cab several times a day, the beverage truck is equipped with slip resistant interior grab handles and self cleaning, dual level steps for easy entry and exit.

SAFE SEAT OPTION

Freightliner provides you with the flexibility of options and components necessary to outfit your truck like no other manufacturer. Ideal for route sales and delivery, the Business Class beverage truck features the safe seat option which provides the driver with a handy and secure safe installed under the passenger seat for collections.

BETWEEN THE SEAT FILE/STORAGE

The roomy cab interior has plenty of elbow room and with the optional storage console between the seats, paperwork stays organized and is readily accessible. Available with a 12-volt receptacle for inventory control devices and computers, the in-between the seats console is, by far, a favorite of drivers whose truck is also their office.

CORDURA SEATS

Unlike cloth or vinyl seat covers, the Cordura seat cover option is ideal for busy drivers on the go. The Cordura seat cover is an extremely durable fabric that can take a puncture or tear and still be serviceable. Cool in summer and warm in winter, Cordura seat covers easily stand up to the constant wear and tough demands of everyday use.

BODY BUILDER FRIENDLY OPTIONS

Business Class beverage trucks can be custom built with many body builder specific options like an additional 7 feet of electrical and pneumatic line – packaged to fit out drop frame trucks, a transverse muffler – which doesn't need to be repositioned for a drop frame, and a partial beverage insert to make body installation nearly seamless.

Partial List of Standard Features and Available Options

FL 50, 60, 70 and 80 Models

Cab: 106" BBC day cab and 132" BBC extended cab available in flat roof and high roof configurations.

Engines: Mercedes-Benz MBE900, Cummins ISB and ISC and Caterpillar CFE available in horsepower ranging from 170 hp to 300 hp.

Transmissions: Meritor and Eaton Fuller manual transmissions, Eaton Fuller AutoShift™ and Allison automatic.

Front Axles: Meritor® steer axles available in capacities from 8,000 lbs. to 20,000 lbs.

Rear Axles: Meritor single and dual drive available in capacities ranging from 13,000 lbs. to 46,000 lbs.

Front Suspensions: Freightliner taperleaf available in capacities ranging from 6,000 lbs. to 14,000 lbs., and Freightliner flat-leaf available in capacities ranging from 14,000 lbs. to 18,000 lbs.

Rear Suspensions: Freightliner taperleaf single and dual drive configurations available in capacities ranging from 12,000 lbs. to 40,000 lbs.; Freightliner flat-leaf single and dual drive configurations available in capacities ranging from 17,500 lbs. to 40,000 lbs.; Freightliner AirLiner™ single and dual drive configurations available in capacities ranging from 10,000 lbs. to 46,000 lbs.

Frame Rails: 1/4" x 10" to 7/16" x 11 1/8" rails; Partial outer frame reinforcement; Partial and full L-sert and C-channel inner frame reinforcement; Section modulus from 10.005 cu. in. per rail to 31.18 cu. in. per rail; RBM's up to 3,432,000 lbf. in.

FL 106

Cab: 106" BBC day cab and 132" BBC extended cab available in flat roof and high roof configurations.

Engines: Detroit Diesel Series 50, available in horsepower ranging from 250 hp to 320 hp.

Transmissions: Meritor and Eaton Fuller manual transmissions, Eaton Fuller AutoShift and Allison automatic.

Front Axles: Meritor steer axles available in capacities from 12,000 lbs. to 20,000 lbs.

Rear Axles: Meritor single and dual drive available in capacities ranging from 21,000 lbs. to 46,000 lbs.

Front Suspensions: Freightliner taperleaf available in capacities ranging from 12,000 lbs. to 14,000 lbs., and Freightliner flat-leaf available in capacities ranging from 14,000 lbs. to 18,000 lbs.

Rear Suspensions: Freightliner taperleaf single and dual drive configurations available in capacities ranging from 23,000 lbs. to 40,000 lbs.; Freightliner flat-leaf single and dual drive configurations available in capacities ranging from 23,000 lbs. to 40,000 lbs.; Freightliner AirLiner single and dual drive configurations available in capacities ranging from 21,000 lbs. to 46,000 lbs.

Frame Rails: 5/16" x 10 1/8" to 7/16" x 11 1/8" rails; Partial outer frame reinforcement; Partial and full L-sert and C-channel inner frame reinforcement; Section modulus from 12.50 cu. in. per rail to 31.18 cu. in. per rail; RBM's up to 3,432,000 lbf. in.

FL 112

Cab: 112" BBC day cab and 138" BBC extended cab available in flat roof and high roof configurations.

Engines: Mercedes-Benz MBE4000, Caterpillar C-10 and C-12 and Cummins ISM available in horsepower ranging from 280 hp to 435 hp.

Transmissions: Meritor and Eaton Fuller manual transmissions, Eaton Fuller AutoShift™ and Allison automatic.

Front Axles: Meritor steer axles available in capacities from 12,000 lbs. to 20,000 lbs.

Rear Axles: Meritor and Dana Spicer single and dual drive available in capacities ranging from 21,000 lbs. to 46,000 lbs.

Front Suspensions: Freightliner taperleaf available in capacities ranging from 12,000 lbs. to 20,000 lbs., and Freightliner flat-leaf available in capacities ranging from 16,000 lbs. to 18,000 lbs.

Rear Suspensions: Freightliner taperleaf single and dual drive configurations available in capacities ranging from 23,000 lbs. to 40,000 lbs.; Freightliner flat-leaf single and dual drive configurations available in capacities ranging from 20,000 lbs. to 40,000 lbs.; Freightliner AirLiner single and dual drive configurations available in capacities ranging from 21,000 lbs. to 46,000 lbs.

Frame Rails: 9/32" x 10 1/16" to 7/16" x 11 1/8" rails; 1/4" C-channel inner frame reinforcement; Section modulus from 12.57 cu. in. per rail to 31.18 cu. in. per rail; RBM's up to 3,432,000 lbf. in.
