

## WESTERN STAR TRUCKS®

### Western Star Owner/Operator Series

The North American Trucker. There isn't anyone like you anywhere else in the world. In England, they wear neck ties and drive "lorries"... on the wrong side of the road.

You're different. Independent. Elite. It takes a special license to be who you are.

Western Star is a lot like you. We love building trucks as much as you love driving them.

And if it takes a unique person to engineer and build a Western Star, it's because a unique person is going to be operating it...you.

### You can't love a Western Star too much.

Every one is custom spec'd, offering well over 8,000 performance and styling options. We build to your requirements, not ours.

Begin with some basic choices:

- three models: FA, SA and EX
- three BBC's: 109", 123", 132"
- set-forward or set-back front axle
- five Star Light sleeper shapes and sizes — including the new 82" Stratosphere

Then build it anyway you like...

Spec' an engine up to 600 hp. Add a premium air-suspended driver seat with arm rests, heat, massage and lumbar support. For peace of mind out on the road, include the DataStar information system that manages and displays key vehicle and driving information.

### Ownership has never been easier.

Our 200 plus North American Dealer network, through DaimlerChrysler Services Truck Finance, offers a variety of flexible financing packages custom designed for today's Owner/Operator.

Call 1-800-645-9139 for the Western Star Dealer nearest you.

4900 EX with 132" BBC, Extended Hood and 82" Stratosphere Sleeper

4900 EX with 132" BBC, Extended Hood and 76" Ultra High Roof Sleeper

4900 EX "LowMax" with 132" BBC and 62" Ultra Low Roof Sleeper

# The Features You Want. The Quality You Deserve.

62" High Roof SLS in Mesa trim with "Big Size" Nova Kool fridge

Stratosphere with Phoenix trim, SLG cabinet finish level, Dinette Sleeper Seating Package and table, plus sliding rear glass panel.

Rocker type switches include LED illuminated symbols for clear identification. Backlit Star Gauges are easy to read, even in bright sunlight.

## Unmatched Sleeper Offerings

### A Good Day's Work...A Good Night's Sleep

Star Light Sleepers (SLS) have earned a reputation among Owner/Operators for their quietness, roominess, superior design and legendary workmanship and quality. Plush interior trims, extra-wide deluxe mattresses and automatic temperature control help guarantee that after a good day's work, you won't get a better night's sleep anywhere...until you get home.

### Larger Payloads

Aluminum skins bonded to a polypropylene honeycomb core makes the SLS lightweight, durable and corrosion-resistant. This design also results in tremendous weight savings that translate into larger payload capacities.

### 5 Sleeper Shapes/ 5 Sizes

The SLS is available in 5 roof configurations and 5 sleeper lengths — including the new 82" Stratosphere:

- Ultra Low Roof: 48" and 62"
- Low Roof: 34", 48" and 62"
- High Roof: 48", 62" and 76"
- Ultra High Roof: 76"
- Stratosphere Walk-Through: 82"

### Standard Features/Custom Options

The SLS can be customized to reflect your style and taste, beginning with the three interior trim levels: Dakota, Mesa and Phoenix. Notable standard and optional features (not available on every model) include:

- 3 cabinet finish levels: SLS, SLX and SLG
- A variety of storage configurations
- Cab-mounted privacy curtain
- 48" extra-wide mattress
- Raised fixed upper bunk with optional storage cabinet
- Premium Plus Noise Reduction Package

- Available Inverter and Grand Shore Power
- "Big Size" Nova Kool fridge
- Panasonic 9" and 13" televisions
- Sanyo 600W 110V microwave
- Digital Automatic Temperature Control
- Dinette Seating Package with table
- Choice of stereo systems, including  stereo

## The Quality Is Built In

### Western Star Craftsmanship

We don't scrimp. We don't shave. We don't cut corners.

Western Star craftsmanship is authentic...it's Old World.

We're proud to offer more than 8,000 options. But we're just as proud to say that there's still one thing that comes standard with every truck we make — Western Star quality.

### Something to Shout About

No cab is quieter than a Western Star. But if that isn't enough, the optional Premium Insulation Package can reduce interior noise levels by an additional 3 dBA.

### Swiss-Made Electronics

The location of key gauges, together with gauge and bezel style, is your choice. Backlit gauges are controlled by Swiss-made electronic stopper motors for unmatched accuracy and rugged reliability. Standard with Star Gauge, DataStar offers a user-selected display of vital vehicle and driving functions.

## Enough Options to Fill a Data Book

There isn't room enough to tell you all about what makes a Western Star interior special. We've mentioned only a few. Your Western Star Dealer would be happy to sit down and go over the complete offerings...next time you have an afternoon free.
