

XD **6900**

Extreme is the only word to describe the Western Star® 6900XD.

As a tractor, it can handle massive loads of over 500,000-pound GCWs. Put a body on it and it can move 80,000 pounds. It gets the biggest jobs done, but if you want to see what it's really capable of, contact your dealer. They can help you spec the truck any way you need.

XD EXTREME DUTY

A	BBC: 141"
B	WB: up to 486"
C	BA: 59"

6900XD available in All-Wheel Drive, see All-Wheel Drive Tech Sheet
